→ SIX MUSCLE GROUPS SIMULTANEOUSLY

WONDER Axon works at the same time on buttocks, quadriceps, femoral, abs, obliques and arms. Separate control for each muscle group.

→ RESULTS IN 2 WEEKS

WONDER Axon delivers visible results with the help of its multitude of programs: hypertrophy, muscle toning, definition, pelvic floor, cellulite improvement, etc. We are aesthetic version of the innovative technologies used in elite sports in recent years to reduce fat volume and dramatically increase muscle power.

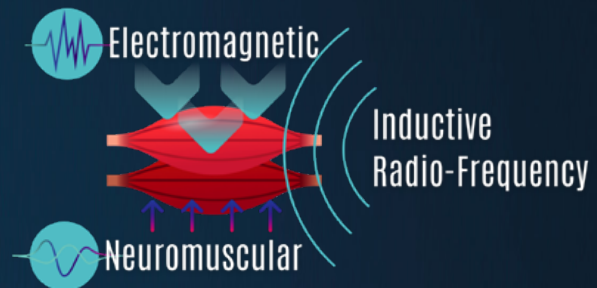

TECHNOLOGY YOU HAVE NEVER SEEN BEFORE:

MULTI-USER: One device = treat upto 4 patients simultaneously.

CLOUD-BASED SOFTWARE: Track the results of your patients and manage the use of your Wonder from anywhere.

DEVICE REMOTE CONTROLLED BY TABLET.

COMPLETE BODY TRANSFORMATION: Immediate increase in strengthened endurance, widespread loss of fat mass.

WONDER Axon is capable of producing 60000 contractions all over the body, with a record depth of upto 20 centimeters, thanks to its unique pulse width of 1000 microseconds. The treatment is a buzzing and intense 25 minute workout experience that utilizes technology to "imitate" and amplify the signals that the brain sends to the muscles to make them contract thousands of times per second and offers a gentle and lasting improvement. Users will lose centimeters immediately and in the second phase, fat depots are attacked. Thus, the training success is amplified and in addition girth and weight are reduced..
